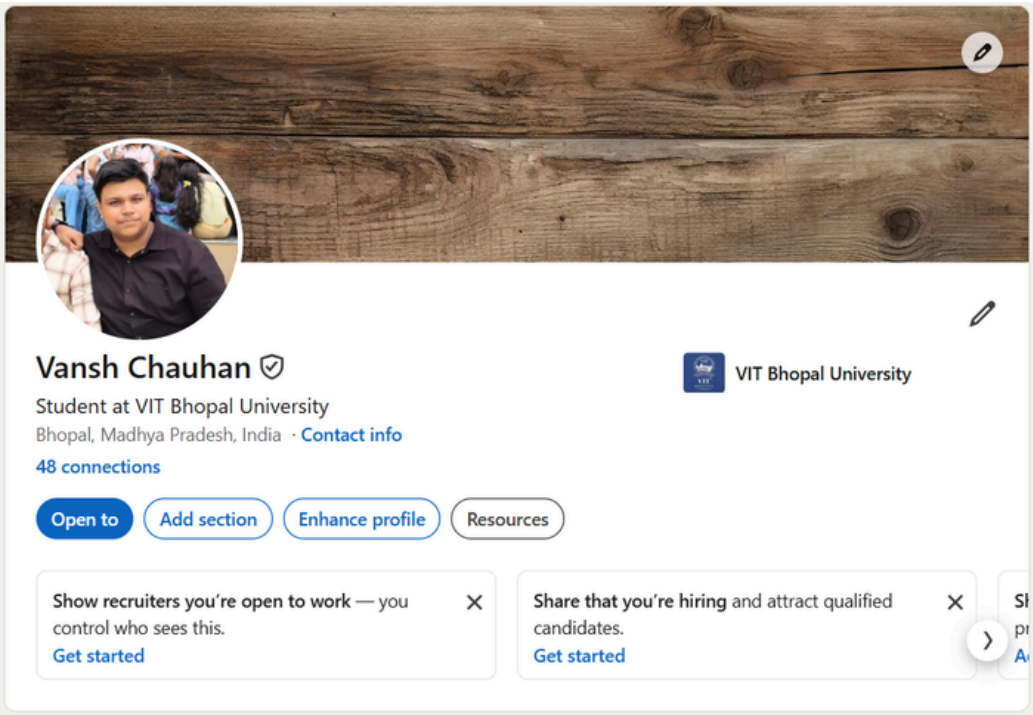
TASK-2 — DIGITAL PORTFOLIO

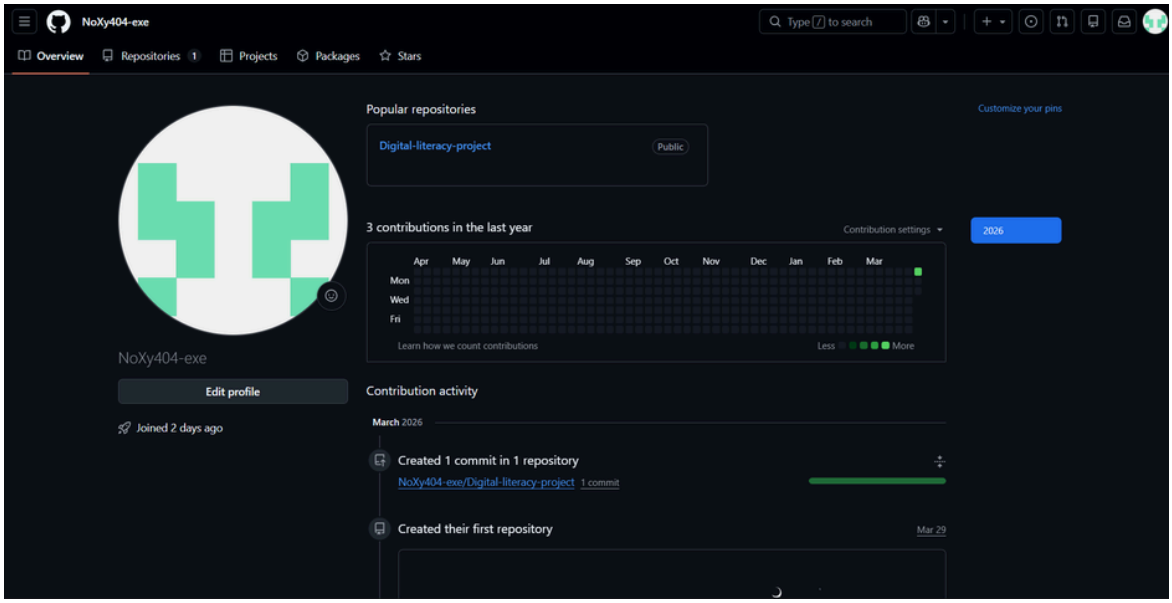
Objective of Task-2

Create professional online presence by setting up and optimizing digital profiles and learning safe online behaviour.

- **LINKEDIN PROFILE**



- **GITHUB PROFILE**



1.What I Learned

Creating professional profiles helped me understand the importance of digital identity. I learned how employers and institutions view students online and how a well-maintained profile creates a positive impression.

Iunderstood the difference between personal and professional online presence. 2. Importance ofProfessional Profiles

Professional profiles:

- Build credibility
- Help in internships/jobs
- Show skills and achievements
- Create networking opportunities

LinkedIn helps in networking, while GitHub helps showcase projects and technical work.

3.How This Task Improved My Digital Skills This task improved:

- Online communication
- Professional branding
- Digital confidence
- Awareness of online safety

Now I feel ready to maintain a strong professional online presence.

4. Conclusion

This task was very helpful in understanding digital responsibility and professional networking. These profiles will help me in future academic and career opportunities.
